Why choose Artex Shutters?

“

we are able to offer the highest quality shutters at extremely competitive prices

”

- We are a direct importer, this means we are able to offer the highest quality shutters at extremely competitive prices, overall delivering the very best value for money.
- Our local factories carry back-up stock of the most widely used components. Coupled with our 15 year workmanship guarantee this provides our customers with an unequalled standard of service and total peace of mind.
- Our solid timber range includes attractive painted finishes as well as classic timber. We also offer timber alternatives as an ideal solution for wet areas including bathrooms.
- So if you want to create a space you'll love coming home to talk to your local shutter specialist about Artex Shutters.

Buying shutters is a big investment in your home, we help you make the right decision.

Easy to clean

Curtains hide dust and are often costly to clean and unlike blinds, shutters are very easy to keep looking like brand new. Shutters are virtually maintenance free and our range does not require oiling or lacquering. In a normal environment boardwalk shutters will provide a lifetime of enjoyment.

Privacy

A unique feature of our shutters is the ability to control the level of light, airflow and privacy, at your fingertips. The flexibility and level of control is unequalled when compared to other window treatment options.

Our modern discrete 'clearview' system or traditional front tilt bar will match your decor and interior styling perfectly.

Shutter options

Artex Shutters are available in a very comprehensive range of fitting options. Shutters can be produced to fit almost any window, sliding door or designed space. You can select from hinged, sliding, bi-fold and a variety of fixed and removable alternatives. Your shutter specialist will assess each application individually to take into account location within the home, views and privacy to provide you with a stunning and unique solution. Shutters are also a great solution where safety is a concern. Shutters are 'child friendly' with no cords or fittings that could cause injury when used correctly.

After the sale

Artex Shutters and Blinds have factories in Australia that carry a wide variety of spare parts including all widely used components. This ensures that in the unlikely event that any fault is detected or damage occurs, repairs can be carried out swiftly and efficiently. We recognise the value of our customers and aim to not only meet but exceed expectations.

“
the ability to control the
level of light, airflow and
privacy, at your fingertips

”

Artex Shutters thanks our customers, including Simmonds Homes, for allowing us to photograph and display our work.

Our commitment to you

Artex Shutters offers customers one of the best product guarantees available in the industry.

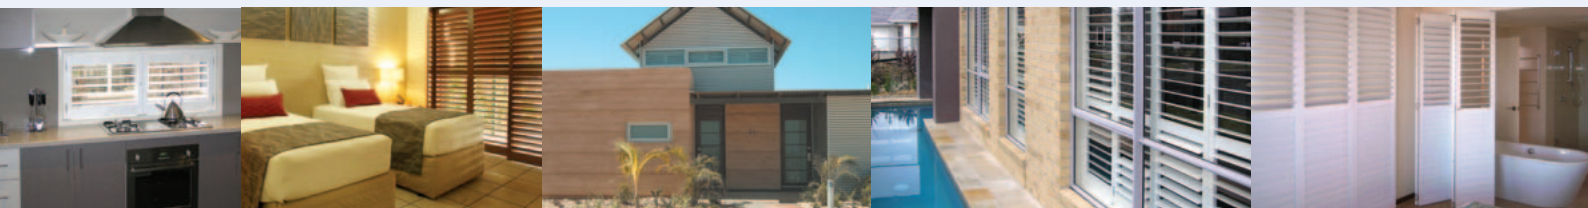

15 year guarantee of workmanship

We happily warrant the workmanship and manufacture of our shutters for 15 years, which covers any fault relating to the construction of the shutter panels and frame. Our basswood shutters are assembled using a mortise and tenon join, then glued and screwed for durability, giving added piece of mind for the longevity of our product.

5 year finish guarantee

The painted/printed finish on our basswood and fauxwood shutters is guaranteed not to crack, peel, or bubble for a period of five years. This five year period also covers our product against warping, twisting or bowing, along with any defects relating to hardware supplied by Artex Shutters. Fading visible by the naked eye is also covered in this 5 year period.

Please note that issues arising from installation are not covered by Artex warranty.
